

Awareness Programme on Balanced Use of Fertilizers Conducted in Bareilly District

An awareness programme on the **balanced use of fertilizers** was successfully organized by ICAR-Indian Veterinary Research Institute, Izatnagar in villages **Laxmipur, Kesharpur, and Saidupur Kurmiyan** on **May 6, 2026**. The initiative aimed to educate farmers about sustainable nutrient management practices to improve soil health and crop productivity. A total of **65 farmers** actively participated in the programme, showing keen interest in learning scientific approaches to fertilizer application. Experts highlighted the importance of balanced fertilization, integrated nutrient management, and reducing excessive dependence on chemical inputs.

The programme was conducted by a dedicated team comprising **Dr. Subodh Kumar, Dr. Rekha Pathak, Dr. Vikash Chandra, Dr. Asok Kumar M., Dr. Megha Sharma and Mr. Veer Singh**. Farmers were encouraged to adopt soil testing practices and judicious use of fertilizers to enhance crop yield while maintaining environmental sustainability. The initiative reflects the continued efforts of ICAR-IVRI, Izatnagar to promote scientific farming practices and support rural agricultural communities in the Bareilly district region.
